Editorial

Improving how orthopaedic journals report research outcomes based on sex and gender

Shoulder

ChatGPT performance on the American Shoulder and Elbow Surgeons maintenance of certification exam

An isolated bioinductive repair vs sutured repair for full-thickness rotator cuff tears: 2-year results of a double blinded, randomized controlled trial

Does adding hydrogen peroxide to chlorhexidine gluconate increase the effectiveness of skin preparation in reducing cutaneous *Cutibacterium* levels? A randomized controlled trial

Elbow

Hydrothermal ablation in recurrent or chronic olecranon bursitis: a prospective study

A review of the New Zealand National Joint Registry to evaluate the survivorship and revision rates of Nexel and Coonrad-Morrey total elbow arthroplasty

Basic Science

Reverse total shoulder arthroplasty with proximal bone loss: a biomechanical comparison of partially vs. fully cemented humeral stems

Three-dimensional analysis of biplanar glenoid deformities: what are they and can they be virtually reconstructed with anatomic total shoulder arthroplasty implants?

Review Article

Reverse shoulder arthroplasty design—inlay vs. onlay: does it really make a difference?
