Subject: [AE] Editor Decision

Dear Annisa Bhikuning:

We have reached a decision regarding your submission to Automotive Experiences, "The Simulation of Performance and Emissions from Rapeseed and Soybean Methyl Ester in Different Injection Pressures".

I think this is an interesting article regarding the use of diesel fuel. However, for the publication of a manuscript journal, the number of words is generally more than 3500. In addition, it is necessary to strengthen the discussion in the discussion sub-chapter, such as review suggestions (attached). I hope the author will improve this manuscript.

Our decision is: **Revisions Required**

Please revise your manuscript carefully, the revision process requires two major documents:

- The first is the revised manuscript highlighting all the modifications made following the recommendations received from the reviewers (example of [revised manuscript](#)).
- The second is a letter listing the authors' responses illustrating they have addressed all the concerns of the reviewers and editors (example of [response letter](#)).

These two documents should be drafted carefully. The authors of the manuscript can agree or disagree with the comments of the reviewers and are not always obliged to implement their recommendations, but they should in all cases provide a well-argued justification for their course of action.

You are expected to return the revised paper no later than **2 weeks** from your receiving this notification.
