International Journal of Surgery Case Reports
Title: Radial Head Stabilization After Ulnar Lengthening in Type IVB Multiple Hereditary Exostoses: A Pediatric Case Report Using a Limb Reconstruction System and Fixation Button

Dear Dr Kholinne,

Thank you for your recent submission to International Journal of Surgery Case Reports.

Before we send your manuscript out for review, we kindly request that you make the following changes/corrections:

1. Please remove the older version from the manuscript files and include only the updated tracked and untracked main manuscript versions.
2. Please upload ONE revised manuscript with track changes (Your revised manuscript with track changes added or your revisions highlighted in bold/red) and ONE revised manuscript un-tracked (A clean unmarked copy of your revised manuscript). Currently all the documents are untracked.
