

**BUKTI PROSES *REVIEW* ARTIKEL PUBLIKASI DI
JURNAL INTERNASIONAL BEREPUTASI Q3**

Judul Artikel : *Soil Chemical Characteristics And Soil Fertility Status In Coffee Agroforestry In The Upper Ciliwung Watershed*

Penulis : *Rini Fitri, Nur Intan Simangunsong, Dibyanti Danniswari, Herika Muhamad Taki

Nama Jurnal : **Malaysian Journal of Soil Science**
Vol 28., Halaman 382-387

**First author*

Berikut merupakan bukti-bukti proses mulai submit – review – publikasi artikel di Jurnal:

No.	Uraian	Tanggal
1	Submit artikel di Soil Science Conference 2024 Kuantan, Pahang Malaysia	21 Februari 2024
2	Letter of acceptance oral presentation to SOILS 2024	25 Maret 2024
3	Bukti submit artikel ke Jurnal MJSS	26 Mei 20024
4	Bukti review 1	5 Agustus 2024
5	Bukti pengiriman kembali hasil revisi 1	14 Agustus 2024
6	Bukti revisi 2 & pemberitahuan <i>Accept Submission</i> kepada penulis	15 Oktober 2024
7	Bukti pengiriman kembali hasil final revisi 2 & bukti pembayaran	16 Oktober 2024
8	Bukti notifikasi publikasi artikel	31 Desember 2024

1. Submit artikel di Soil Science Conference 2024

The screenshot shows a Gmail interface with a search bar at the top. The left sidebar displays the 'Inbox' with 361 items. The main content area shows an email from 'Google Forms' with the subject 'Registration INTERNATIONAL SOIL SCIENCE CONFERENCE 2024'. The email body contains a green header with the Google Forms logo, followed by a white box with the text 'Thanks for filling out [Registration INTERNATIONAL SOIL SCIENCE CONFERENCE 2024](#)'. Below this, it says 'Here's what was received.' and provides an 'Edit response' button. At the bottom, there is a white box with the title 'Registration INTERNATIONAL SOIL SCIENCE CONFERENCE 2024' and a list of event details: 'Event Date: 14th - 16th May 2024', 'Event Venue: SWISS-BELHOTEL, KUANTAN, PAHANG', and 'Contact us at (+60) 09-5705154 or 2024soils@gmail.com'.

All payment (online transfer/cheque/brank draft/purchase order) payable to:

Account holder : THE MALAYSIAN SOCIETY OF SOIL SCIENCE
Account number : 8602990800 (CIMB BANK BERHAD)
Branch Code : 1212
Swift code : CTBBMYKL
Payment reference : SOILS 2024

E-mail us the details : 2024soils@gmail.com

2. Bukti Letter of acceptance for oral presentation to SOILS 2024

Our Ref. : MSSS/IIUM/SOILS2024-046
Date : 1st March 2024

Dr. Rini Fitri
Universitas Trisakti,
Jakarta, Indonesia.

Dear Dr. Rini Fitri,

INTERNATIONAL SOIL SCIENCE CONFERENCE 2024: "Cultivating Earth's Future: Nurturing Soil Health for Sustainable Agriculture"

Date : 14 – 16 May 2024
Venue : Swiss-BelHotel, Kuantan, Pahang Malaysia

Thank you for submitting an abstract to present at SOILS 2024. On behalf of the Scientific & Technical Committee, I am delighted to inform you that your abstract entitled **"Soil Chemical Characteristics and Soil Fertility Status in Coffee Agroforestry in The Upper Ciliwung Watershed"** has been accepted for **ORAL presentation**.

We also recommend finalizing the registration payment and providing us with the details once the payment has been made. For more details on conference fee and procedure for payment, please refer to website <https://conference.iium.edu.my/SOILS2024/index.php/fees/>. Kindly make your own accommodation reservation at Swiss-BelHotel, Kuantan, Pahang Malaysia.

We look forward to seeing you at the conference.

Thank you.

Yours sincerely,

Dr. Nur Shuhada Tajudin

DR NUR SHUHADA TAJUDIN
Chairman
SOILS 2024

Soil Chemical Characteristics And Soil Fertilty Status In Coffee Agroforestry In The Upper Ciliwung Watershed

Abstract *

The conversion of forest land to coffee agroforestry in the Upper Ciliwung Watershed may result in accelerated leaching and impoverishment of soil quality and decreased litterfall. This study aims to analyse the status of soil chemical fertility in coffee agroforestry in the Upper Ciliwung Watershed. This research used the Field Survey method with a qualitative data analysis approach. The results showed that the status of soil fertility in the aspect of soil chemistry is in the medium - very high category. For the CEC parameter, the values were 36.02 me/100gr (high) in Cibulao, 25.45 me/100gr (high) in Cikoneng, 24.46 me/100gr (medium) in Rawa Gede, and 38.85 me/100gr (high) in Cisuren. Furthermore, the P205 parameter obtained 187.8 mg/100gr (very high) in Cibulao, 38.6 mg/100gr (medium) in Cikoneng, 39.2 mg/100gr (medium) in Rawa Gede, and 22.6 mg/100gr (medium) in Cisuren. K2O was 610.6 mg/100gr (very high) in Cibulao, 87.5 mg/100gr (very high) in Cikoneng, 306.9 mg/100gr (very high) in Rawa Gede, and 31.1 mg/100gr (medium) in Cisuren, and C-organic was 6.00% (very high) in Cibulao, 7.59% (very high) in Cikoneng, 6.39% (very high) in Rawa Gede and 17.33% (very high) in Cisuren

Keywords (not more than 5) *

agroforestry, coffee, soil fertilty, watershed
