Title : implemrntation of transit oriented developmented tod in the jakarta sub urban area

Paper ID :

\*)Fill the blue box with grading of criteria score = 5, 6, 7, 8 ( 5 = the least, 8 = good)

No	SUBJECT OF CRITERIA	Weight (W)	Score* (S)	W x S
1.	<b>TITLE</b>			
	a. The title reflect the result of study	5%	5	0.25
2.	<b>ABSTRACT</b>			
	a. The length of abstract maximum 200 words			
	b. The abstract consist of : aim of study, method, result, and implication			
	c. Fully explaining manuscript content			
	d. The keywords include specific terms of the research	15%	13	1.95
	e. The keywords reflect the main theme or the most important elements of the research			
	f. The keyword easy to find by other researcher			
	g. The keyword maximum is five word			
3.	<b>INTRODUCTION</b>			
	a. Introduction consist of the results from previous studies (literature review), aim of the study, gap from existing literature (specific contribution), the scope of study.	15%	14	2.1
	b. The proportion of introduction is 15% - 20% of the whole article length			
4.	<b>METHOD</b>			
	a. The method consist of research design, subject characteristics, data collection process and data analysis	15%	12	1.8
	b. The research methods are clear enough			
	c. If necessary, it raise ethical issues particularly when dealing with human participant			
5.	<b>RESULT AND DISCUSSION</b>			
	a. Table and or figures should be clear			
	b. Table and or figure numbers should be clearly referred in the body text.			
	c. The tables and or figures are accurately utilized to prove the article claim			
	d. The data citation should be clearly presented	20%	18	3.6
	e. The data and its analysis are scientifically sound			
	f. The discussion should be supported by references			
	g. The discussions relevant to the results
