Althea Medical Journal Officially Indexed in Scopus: A Milestone Achievement

 Dear Readers,

We are pleased to announce that Althea Medical Journal (e-ISSN 2337-4330) has been officially indexed in **SCOPUS** as of October 3, 2024. This is a major achievement for our journal, reflecting the high quality of research and contributions published by our esteemed authors, reviewers, and editorial team.

This milestone marks a significant step forward in our mission to advance medical and health sciences, with a focus on aging-related diseases, wellness, and healthy lifestyle, and to provide a platform for impactful, peer-reviewed research. We are deeply grateful to all our contributors for their unwavering commitment to excellence.

We would like to express our sincere thanks to the authors, reviewers, and editorial board for their ongoing support, which has made this achievement possible. Together, we look forward to continuing our collective efforts in advancing research and knowledge within the scientific community.

Thank you for being part of this journey with Althea Medical Journal. We are excited about the future and the many new opportunities this accomplishment brings.
