Dear Rina Fitriana, Tryantomo Lokhilmahful Palgunadi, Anik Nur Habyba, yun chia liang (Authors):

I write you in regards to manuscript, "**Optimizing Demand Forecasting Method With Support Vector Regression (SVR) In The Manufacturing Industry**," to Jurnal Optimasi Sistem Industri. Following careful consideration by the journal's editor and reviewers in the second-round review, we inform the result as follow:

Editorial Decision: Revision required

Please see the details of review in attachment (Review 1 and 2 are combined) for more information on necessary revisions.

To improve the manuscript, you may choose one or a combination of the following options:

1. Revise/improve the manuscript based on the reviewers' comment, question and/or suggestion. The revisions should be written exactly at the corresponding part/section/sentences. Any provided revisions should be tagged (e.g. different font color, etc.) so that we can easily identify the revision.
2. Provide arguments to challenge the editor's and/or reviewer's comment. In such case, please provide strong arguments along with the valid and sufficient evidences/data. It should be written in a separate file (different from revised manuscript file) by putting out comments to be challenged.

Please address **adequately all reviews in the revision** to ensure the smoothness of editorial workflow process on your manuscript.

Finally, please send the revised manuscript by **November 27, 2024**, after which point we will presume that you have withdrawn your submission from our journal.

Sincerely,
The Editor
Jurnal Optimasi Sistem Industri
