OJSM/2023/067260 - Manuscript Submission

[Details](#)

To: Erica Kholine, Cc: my email

MS ID: OJSM/2023/067260

MS TITLE: The Surgical Outcome of Lateral Ulnar Collateral Ligament Surgery for Posterolateral Rotatory Instability (PLRI) of the Elbow: A Meta-analysis.

Dear Erica Kholinne,

This is to acknowledge receipt of your manuscript by The Orthopaedic Journal of Sports Medicine. It will be reviewed by the Editorial Board and Reviewers' Panel. You will be apprised of the progress of this review.

As stated in our "Guidelines for Authors," a manuscript is reviewed only with the assurance that it is not under simultaneous consideration by another publication, nor has it been published elsewhere. If you have not already done so, please print out the copyright form and financial disclosure form for you and any co-authors to sign and return to the editorial office. Please be sure to indicate if this paper was, or will be presented at any scientific programs, either in part or entirely.

Please remember that you, as corresponding author, are responsible for keeping any co-author/s updated on the status of this manuscript.

If the named authors for a manuscript change at any point between submission and acceptance, an Authorship Change Form (<https://us.sagepub.com/en-us/nam/authorship-change-form>) must be completed and digitally signed by all authors (including any added or removed). An addition of an author is only permitted following feedback raised during peer review. Completed forms can be uploaded at Revision Submission stage or emailed to the Journal Editorial Office contact (info@ajsm.org).

IMPORTANT: Changes to the author by-line by adding or deleting authors are NOT permitted following acceptance of a paper.

If we accept your article for publication, you will need to be sure to upload the accepted version. There is no fee to submit your paper; however, if accepted, an article processing fee will be administered, as outlined in the author guidelines.

Finally, please refer to this number OJSM/2023/067260 when you contact this office. Thank you.

Sincerely yours,

Bruce Reider, MD
Editor

OJSM -- Revision Invitation OJSM/2023/067260

To: Erica Kholine, Cc: elizabeth@ojsm.org, my email

RE: OJSM/2023/067260 - The Surgical Outcome of Lateral Ulnar Collateral Ligament Surgery for Posterolateral Rotatory Instability (PLRI) of the Elbow: A Meta-analysis.

Dear Dr. Kholinne,

Our reviewers have completed their evaluation of your manuscript. They have found the material interesting, but feel that significant revisions or additions are necessary before it can be fully evaluated.

To view the reviews of this manuscript, please visit

<https://submit.ojsm.org> and your "Author Area."

If you agree to revise the paper, please do the following:

- Revise your manuscript according to these suggestions and re-upload. Please make sure that all changes are highlighted in your newly submitted manuscript, to expedite re-review by the editor assigned.
- Please create a letter that cites the reviewers' comments and describes the revisions. The most efficient way to accomplish this is to "cut and paste" the reviewers' comments into your accompanying letter, inserting your response after each comment or question and including the revised text and the line numbers in the new manuscript where the revised text appears. If you do not make a change, cite your reason(s), keeping in mind that explanations are generally less satisfactory than revisions.

Once your revision has been received, it will be reviewed and a more definitive decision reached. Please understand that the ultimate decision will depend upon the content of the revision and that revised manuscripts are still sometimes rejected.

We realize that these revisions are time-consuming, and that you may disagree with some of the suggested changes. However, almost all published papers are revised at least once, and many are revised a number of times. We feel that our reviewers' comments improve the papers for our readership. We hope that you will agree to revise this paper. We look forward to receiving it.

If the named authors for a manuscript change at any point between submission and acceptance, an Authorship Change Form (<https://us.sagepub.com/en-us/nam/authorship-change-form>) must be completed and digitally signed by all authors (including any added or removed). An addition of an author is only permitted following feedback raised during peer review. Completed forms can be uploaded at Revision Submission stage or emailed to the Journal Editorial Office contact (info@ajsm.org).

IMPORTANT: Changes to the author by-line by adding or deleting authors are NOT permitted following acceptance of a paper.

If you are not able to complete the revision within three months, please contact us to request an extension.

Sincerely,

Keith Kenter, MD
Editor

OJSM/2023/067260

MS Title: Surgical Outcome of Lateral Ulnar Collateral Ligament Reconstruction versus Surgical Repair for Posterolateral Rotatory Instability (PLRI) of the Elbow: A Meta-analysis.

Dear Dr. Kholinne,

Congratulations. Your above-referenced manuscript has been accepted for publication in The Orthopaedic Journal of Sports Medicine.

A few changes are still needed, which can be found in a marked manuscript uploaded for your article. If you have any trouble locating the marked manuscript, please email Renee Zagozdon in the OJSM Editorial Office (renee@ojsm.org). In addition, there will be a separate email detailing any other elements needed to finalize your submission.

After these changes are made and once we have all of the required files, the paper will be sent to the publisher. You will receive page proofs of your article once production is complete. Please read the proofs carefully to correct any remaining errors. The paper will be published online shortly thereafter.

Our publisher, SAGE, will be collecting Article Processing Charges (APCs) and the contributor agreement form. Once your paper is finalized and ready to be exported to the publisher, you will receive an email from openaccess@sagepub.com from SAGE with instructions on how to complete the payment and contributor form. Please note SAGE is unable to proceed with publication of your article until the steps have been completed.

Would you like to track publication of your article? If so, please opt in to receive the electronic Table of Contents (e-TOCs) email alerts for OJSM (<https://journals.sagepub.com/connected/OJS#email-alert>) and elect how often you would like to be notified when articles are published: daily, weekly or monthly.

We look forward to working with you in the future.

Sincerely,

Keith Kenter, Associate Editor and Bruce Reider, MD, Editor-in-Chief
