Hi Dr. Kholinne,

My name is Akash and I am currently editing your Cureus article submission entitled 'Non-traumatic Medial-Sided Elbow Pain: A Comprehensive Review of Etiologies, Diagnostic Strategies, and Treatment Approaches'. I have found some issues that require your response before I can finish editing your article and approve it for publication.

You will not be able to edit your paper at this stage so please reply all to this email with the information requested below and your article ID number (384156). You can also email me directly at akash.u@cureus.com.

- Could you please provide the **credit or source information** for **Figures 2-4**?

Please also take a moment to review your article since once I approve publication, **no changes** can be made. If you find any errors, please notify me in your response to this email.

Grateful for your assistance!

Thanks,

Akash
