Dear Dr Kholinne,

Re: "Quantitative Analysis of Forearm Instability in an Essex-Lopresti Injury Model: Effects of Radial Head Replacement and Interosseous Membrane Reconstruction"

We're delighted to let you know that your manuscript has been accepted for publication in International Orthopaedics.

Prior to publication, our production team will check the format of your manuscript to ensure that it conforms to the journal's requirements. They will be in touch shortly to request any necessary changes, or to confirm that none are needed.

Checking the proofs

Once we've prepared your paper for publication, you will receive a proof. At this stage, for the main text, only errors that have been introduced during the production process, or those that directly compromise the scientific integrity of the paper, may be corrected.

As the corresponding (or nominated) author, you are responsible for the accuracy of all content, including spelling of names and current affiliations.

To ensure prompt publication, your proofs should be returned within two working days.

Publication policies

Acceptance of your manuscript is conditional on all authors agreeing to our publication policies at:

<https://www.springernature.com/gp/policies/editorial-policies>

International Orthopaedics is a hybrid journal. This means when the journal accepts research for publication, the article may be published using either immediate gold open access or the subscription publishing route. For further information please visit <https://www.springernature.com/gp/open-science/about/green-or-gold-routes-to-oa>

Once again, thank you for choosing International Orthopaedics, and we look forward to publishing your article.

Kind regards,
